NEBRASKA
Presented by the UNL School of Natural Resources

Sunday, November 6, 2011
1:30 – 4:30 pm • Morrill Hall
A day of discovery and hands-on activities.

Activities:
• See live snakes on display
• Play games using a real-time weather station
• Learn about “alien invaders”
• Explore Nebraska’s unique birds
• Discover the science behind fishing and management of lakes
• Make a nature journal and fill it with wildlife tracks.
• Play an interactive mapping game
• Investigate water and test your drought knowledge
• Examine wildlife pelts and skulls up close
• Experience fulldome planetarium shows
• Scavenger hunts, giveaways, and more!
